

K-LOVE radio is the most positive and uplifting station available in our market. It provides our community with a positive message in songs and in news/commentary, something not available on any other programming. Therefor it would be very dissapointing to myself, my wife and my 14 year old daughter if LPFM prevented the broadcasting of the K-LOVE signal. The positive, ecouraging message provided by K-LOVE is so different from the negative messages presented by other programing. Instead of the secular message of divorce, suicide, unfaithfullness, lude & immoral behavior K-LOVE encourages family values, provides encouragement for those struggling with single parenting, divorce and just getting through the issues of daily life. K-LOVE is constantly uplifting and therefor I believe it provides a positive message which is in the best public interest. Please do not take action which would prevent the airing of this programming.

Thank you for providing this comment opportunity.

Sincerely,

Price Courter
